

## **2014 Virginia Governor's Cup Mine Rescue Contest**

### **Additional Information**

Bullet point No. 3 in the 2014 Governor's Cup written problem was taken out. The statement had to do with the Command Center Attendant not describing the mine workings or the dotted line areas of the map to the team. That statement was taken out of the problem before it was given to the teams so that there would be no conflict with the rules concerning the Command Center Attendant.
