2018
TENNESSEE-COVE LAKE
MINE RESCUE CONTEST
DAY 2

MH
Thank you for coming to help us. You are located at the fresh air base of the Cove-Co #1 mine. This is a very large mine with multiple working sections and interconnected fans and air courses.

A mine rescue team was able to explore to the area inby the area you will be exploring. They were stopped by water in the number 1 entry, and unsafe roof in the number 2 and number 3 entries. Another team was able to setup a safe return and intake inby that you can use to ventilate through.

The number 1 fan is blowing and ventilating the fresh air base.

The mine has a history of bad roof, water and methane. The mine maps are up to date. We have a competent life line person to give and take life line signals if necessary.

Please find the 5 missing miners that were in this area of the mine that you will be exploring. Thank you and good luck.
PROBLEM DAY 2

THE NUMBER 1 FAS IS BLOWING AND CAN BE TurnED OFF AND REVERSED. DO NOT STALL THE FAN, AS IT WILL CAUSE DAMAGE TO IT.

THE RETURN AND INTAKE OUTBY THE FAB AND INBY AREAS HAVE BEEN EXPLORED AND IS SAFE TO VENTILATE THROUGH.
ACCOUNT FOR ALL 5 MISSING MINERS THAT ARE IN THE AREA YOU ARE EXPLORING AND BRING SURVIVORS TO THE FAB.
EXPLORE ALL AREAS OF THE MINE THAT CAN BE DONE SAFELY.

WHEN THE TEAM IS TRAVELING THEY CAN ONLY CARRY 2 TIMBERS PER WORKING TEAM MEMBER AND THEY MUST CARRY THEIR OWN TIMBER IN THEIR HANDS.
BRATTICE CLOTH AND LINE CURTAIN MUST BE EITHER CARRIED IN THE HAND OR ON THE STRETcher. NO THROWING, KICKING, PITCHING ETC. OF THE TIMBERS, WATER PUMP, BRATTICE CLOTH OR LINE CURTAINS BY THE TEAM MEMBERS.
PATIENT STATEMENT
