

*Day Two*

**2020  
COVID CUP  
MINE RESCUE  
JUDGES PACK  
PROBLEM 2**

## STATEMENT

---

I am \_\_\_\_\_, Superintendent of the SUPER CLEAN Company #2 Mine. Thank you for responding to our emergency. This is a brand new section started up to load big coal. Last night a 3 person clean up crew entered the mine. When the outside person had not heard from them in a while, she tried to communicate with them and was not able to make contact so she contacted all necessary officials.

The section is ventilated by a blowing fan and the intake is in the #2 entry with returns going out #1 and #3.

The mine is usually dry so hopefully you will not encounter any water but it has been known to liberate methane.

## PROBLEM

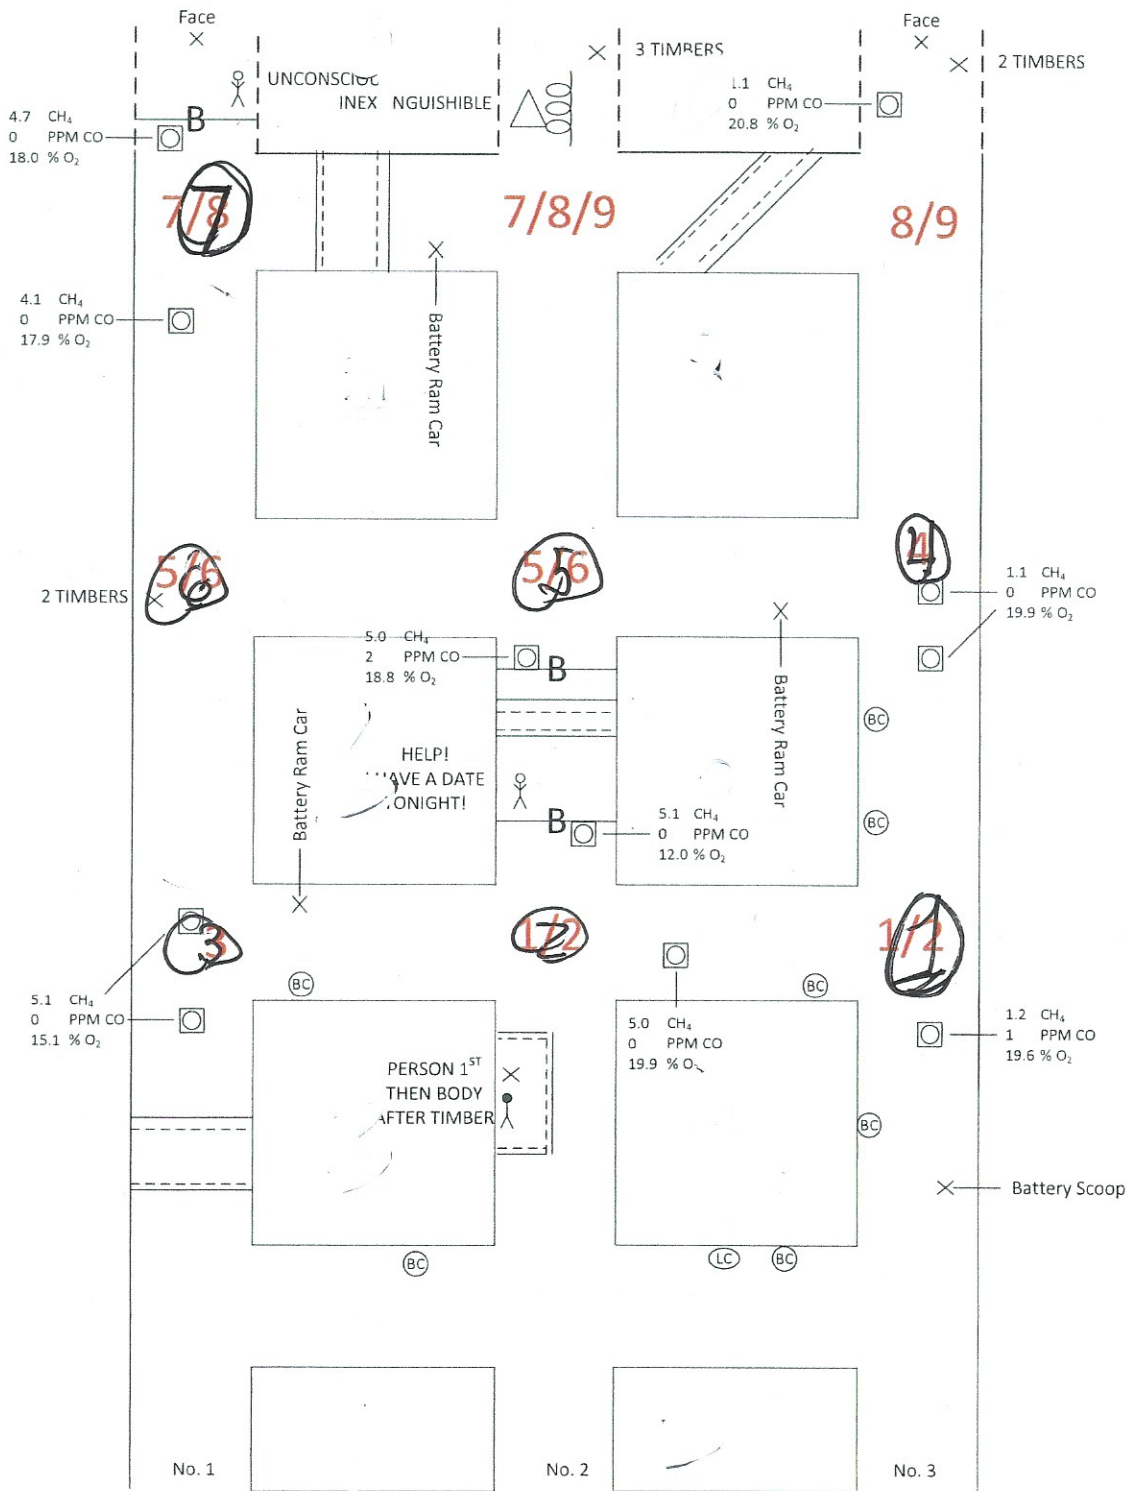

---

- THERE IS A 80 MINUTE TIME LIMIT AND YOU WILL RECEIVE A 10 MINUTE WARNING
- THE FAN IS RUNNING. IT IS A BLOWING FAN AND IT CAN NOT BE STOPPED OR REVERSED. CURRENTLY THERE ARE NO STOPPINGS ACROSS THE FRESH AIR BASE SO THE AIR IS SHORT CIRCUITED
- YOU MAY ONLY CARRY 2 BUILDS WITH YOU
- REPORT TO THE COMMAND CENTER IMMEDIATELY WHEN YOU HAVE VERBAL OR VISUAL CONTACT WITH A MISSING MINER
- IMMEDIATELY REPORT ANY IMPASSABLE WATER
- THE MINE MAP IS NOT UP TO DATE
