

2025 WKMI CONTEST

**ENERGY AND
ENVIRONMENT CABINET**

MAY 21, 2025

DAY 1

MT

2025 WKMI DAY 1 STATEMENT

Thank you for responding to our call for help. You are located at the Jeff Clark #2 mines underground at the fresh air base. At 9:00 PM we had 3 miners enter the mines to do some water pumping on the section. At 4:00 am the fire boss arrived at the section to perform a pre-shift examination but was unable to make the section due to low O₂ and adverse roof conditions. He was unable to contact the miners, so he established a fresh air base. The outside fan is being monitored at this time State and Federal have been notified and are on scene along with back up Mine Rescue teams. That is all the information we have currently. Please help find our missing miners. Good Luck

2025 WKMI WRITTEN INSTRUCTIONS

Explore all areas of the mine that done safely.

Account for all missing miners, Bring survivors to the fresh air base.

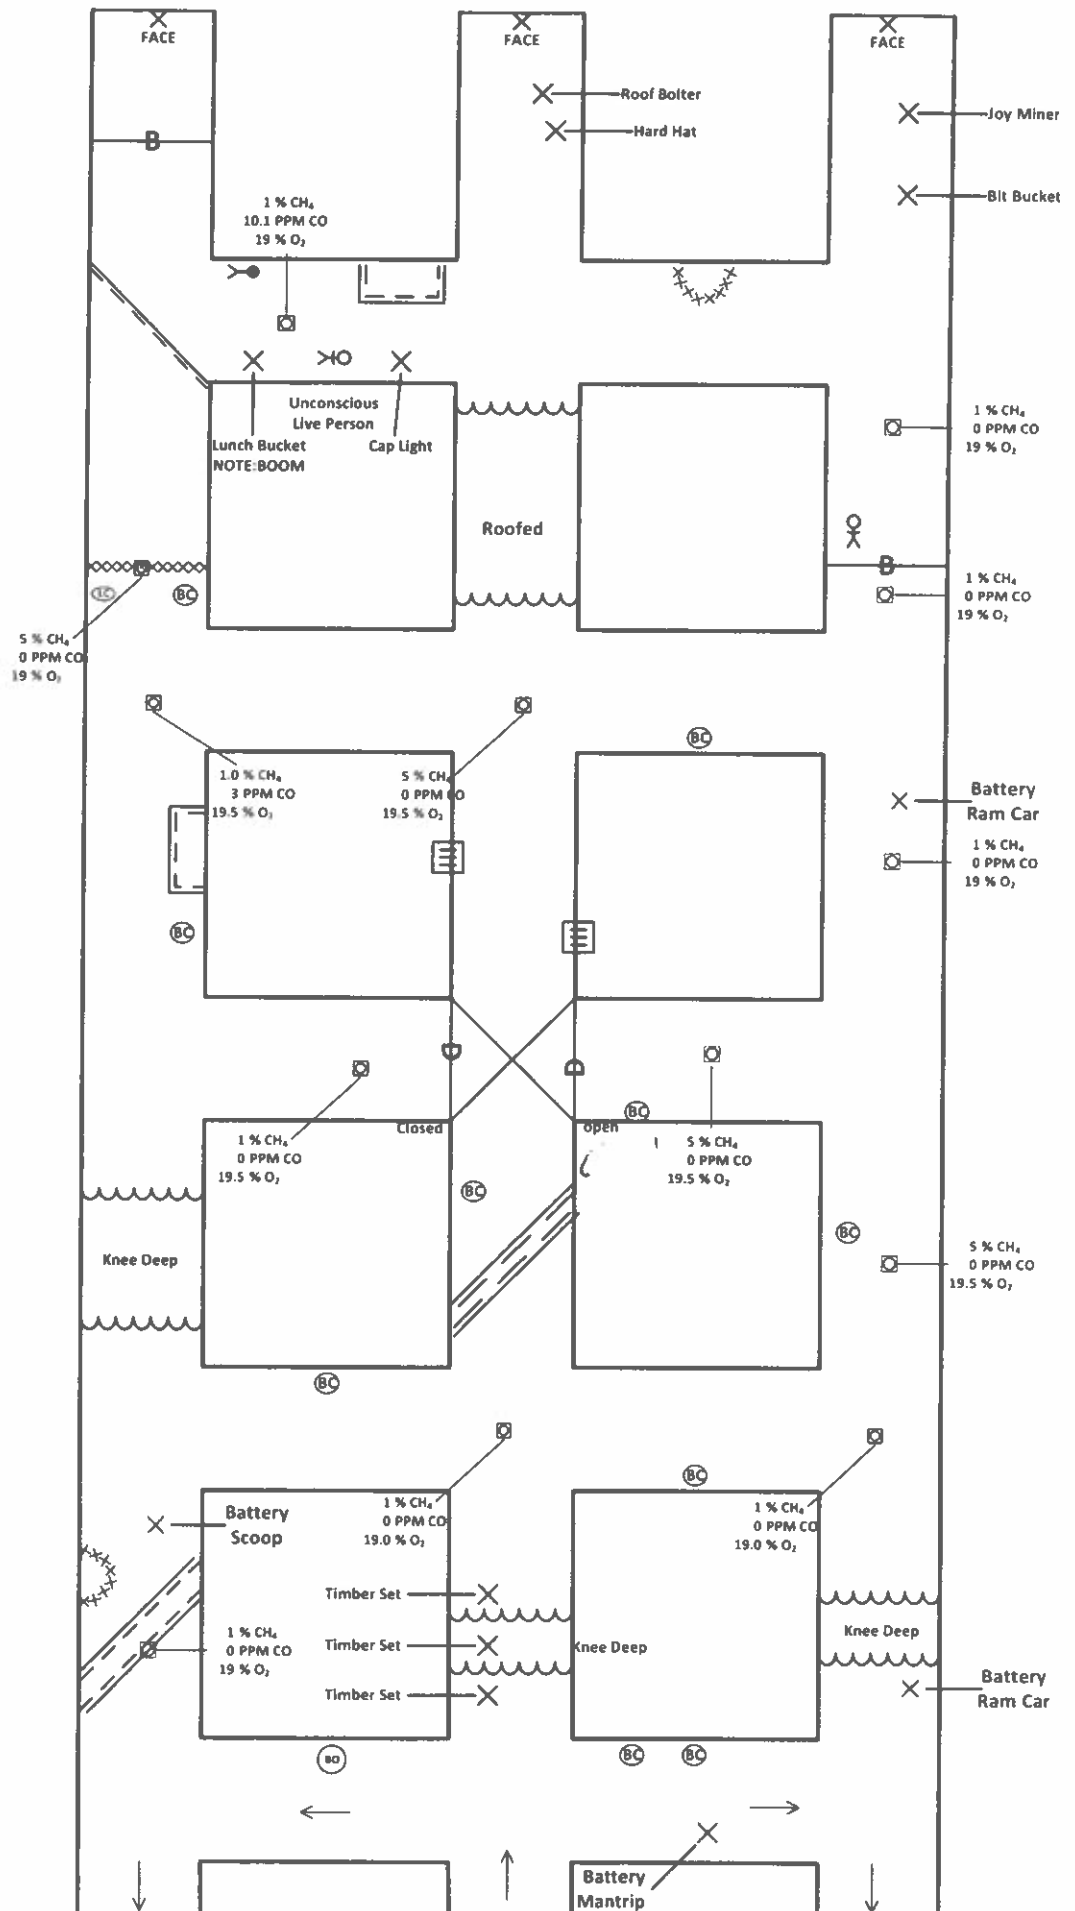

The Blowing fan is running and can not be stopped, stalled or reversed.

The mine map is up to date.

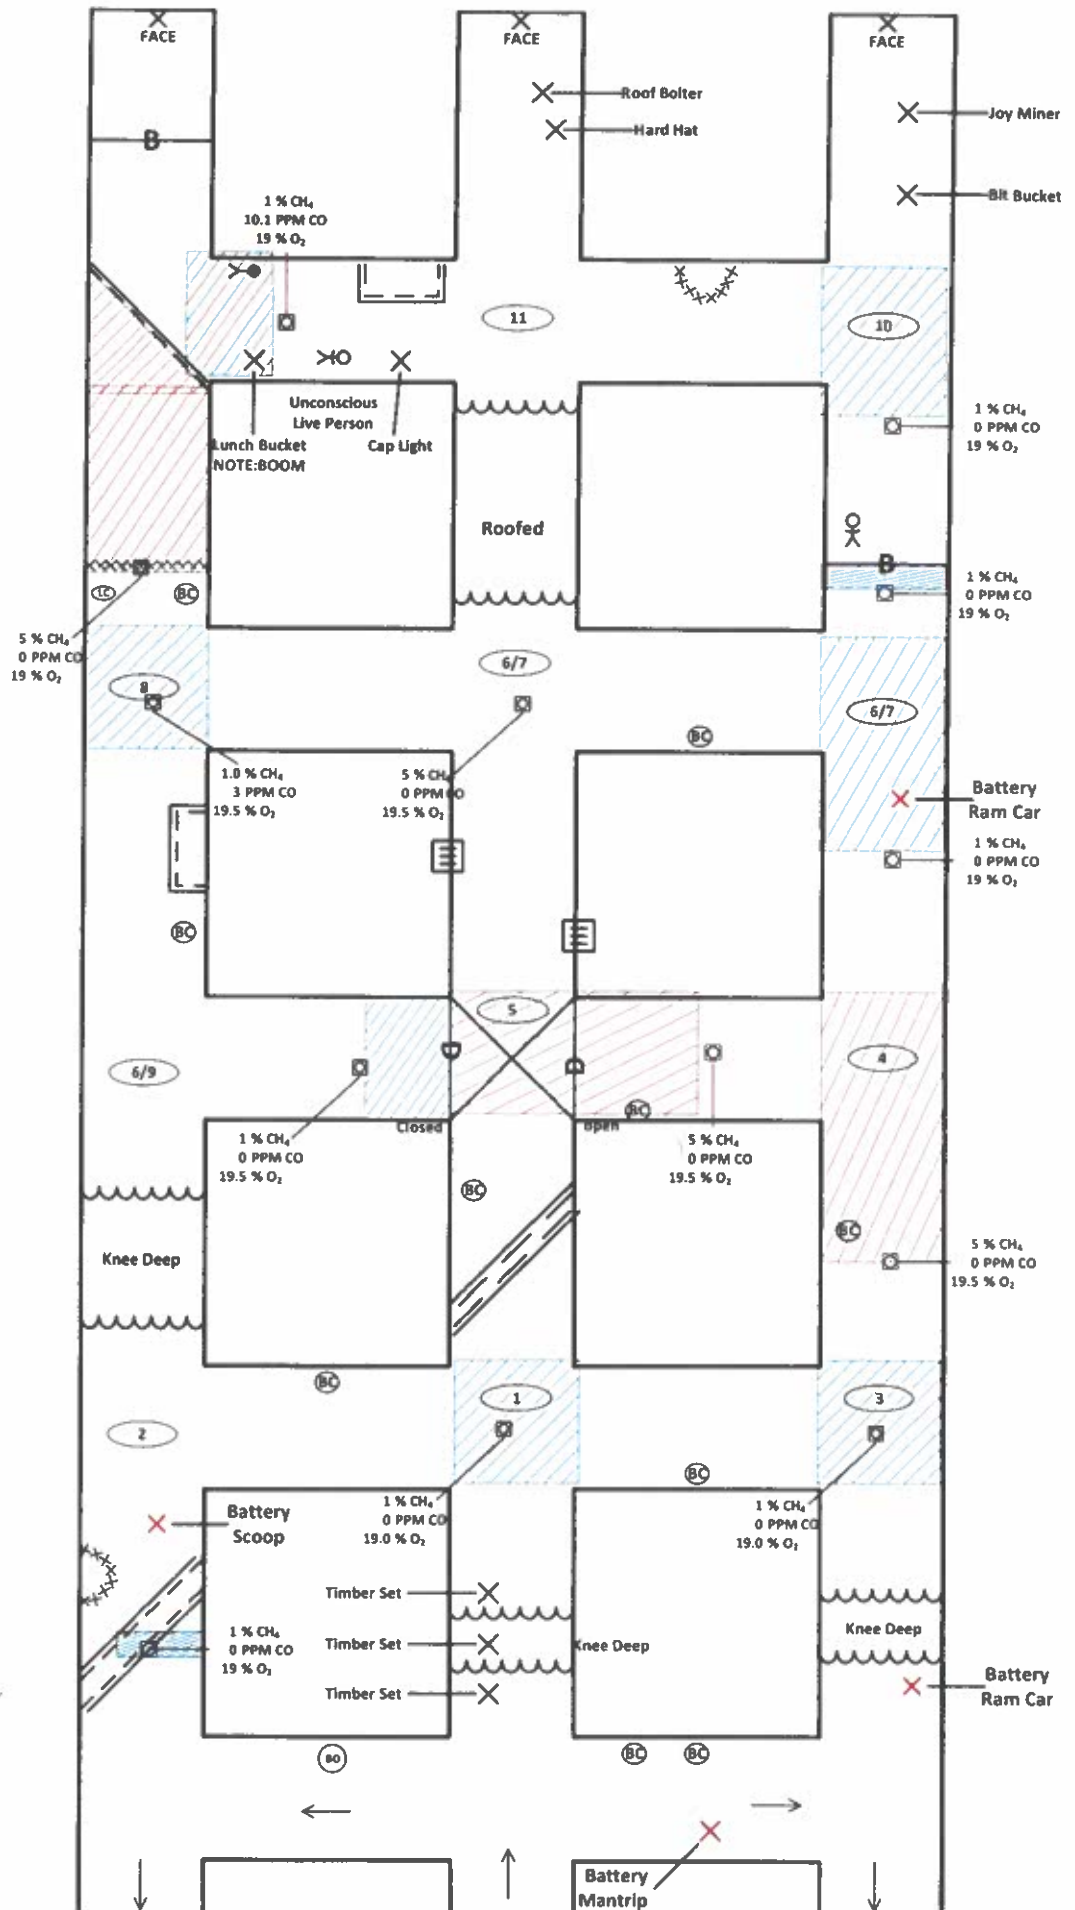

Teams may only carry two sets of brattice cloths while traveling.

Please leave the mines for barefaced exploration.

A diagram consisting of a 6x2 grid of squares. The squares are arranged in two columns and six rows. In the center of the grid, two squares (row 3, column 1 and row 3, column 2) are connected by a cross-shaped line. The intersection of this cross is marked with a small circle containing the letter 'D'. The top and bottom rows of the grid are empty.
