

Seat Belts

Presented by the Class of 2009 & Friends

Wear your seat belt like this.

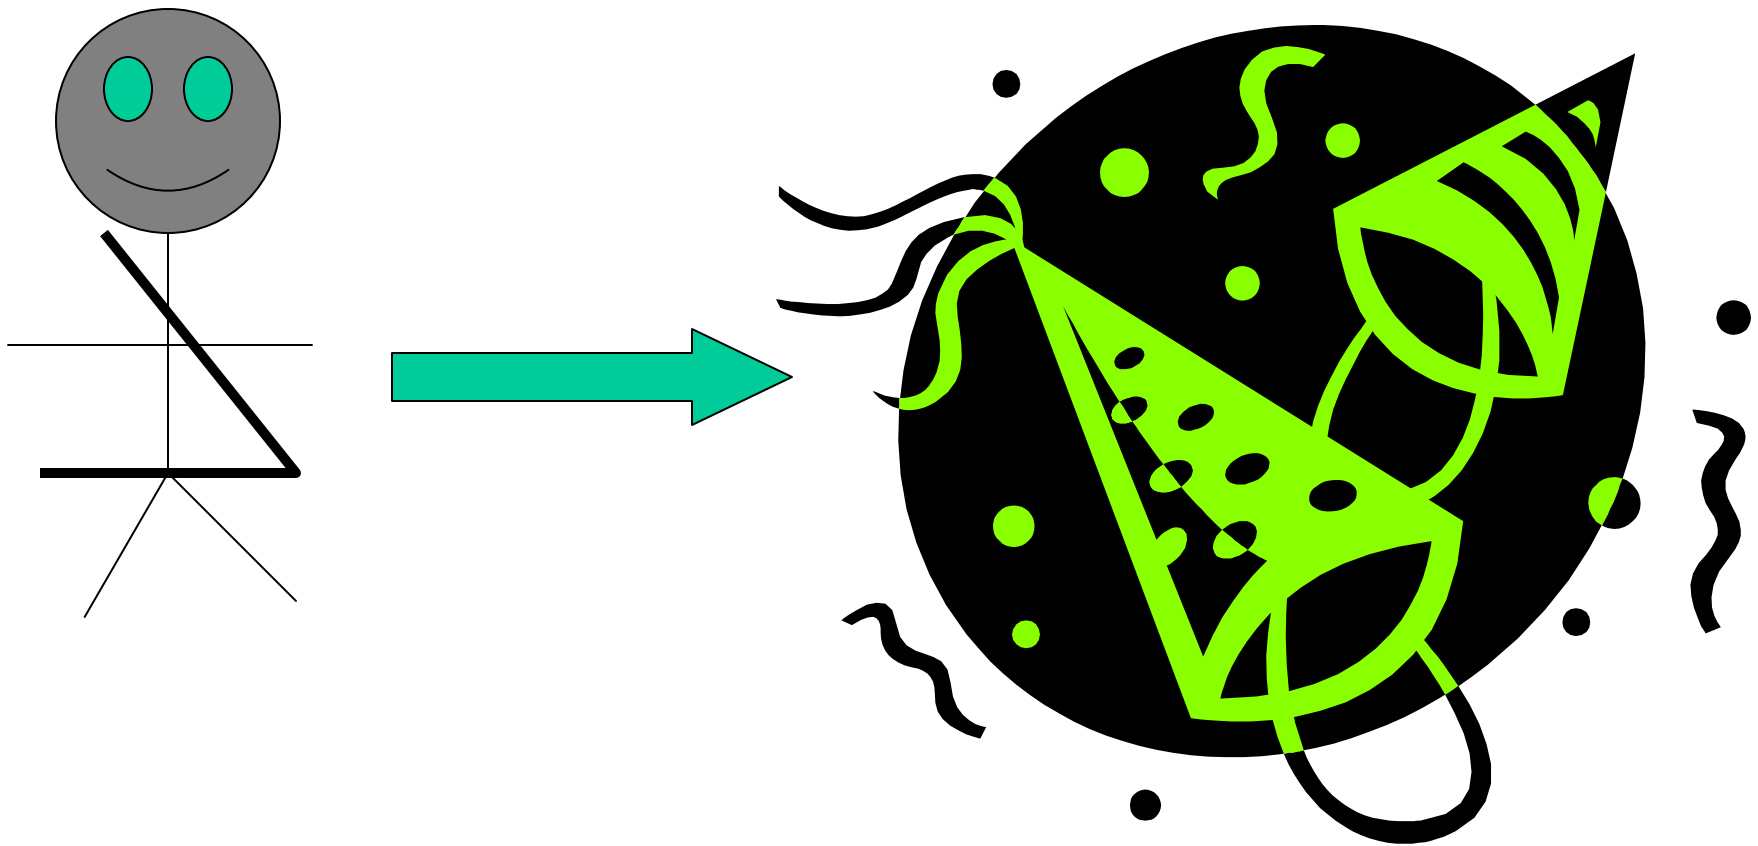

Not
like
this.

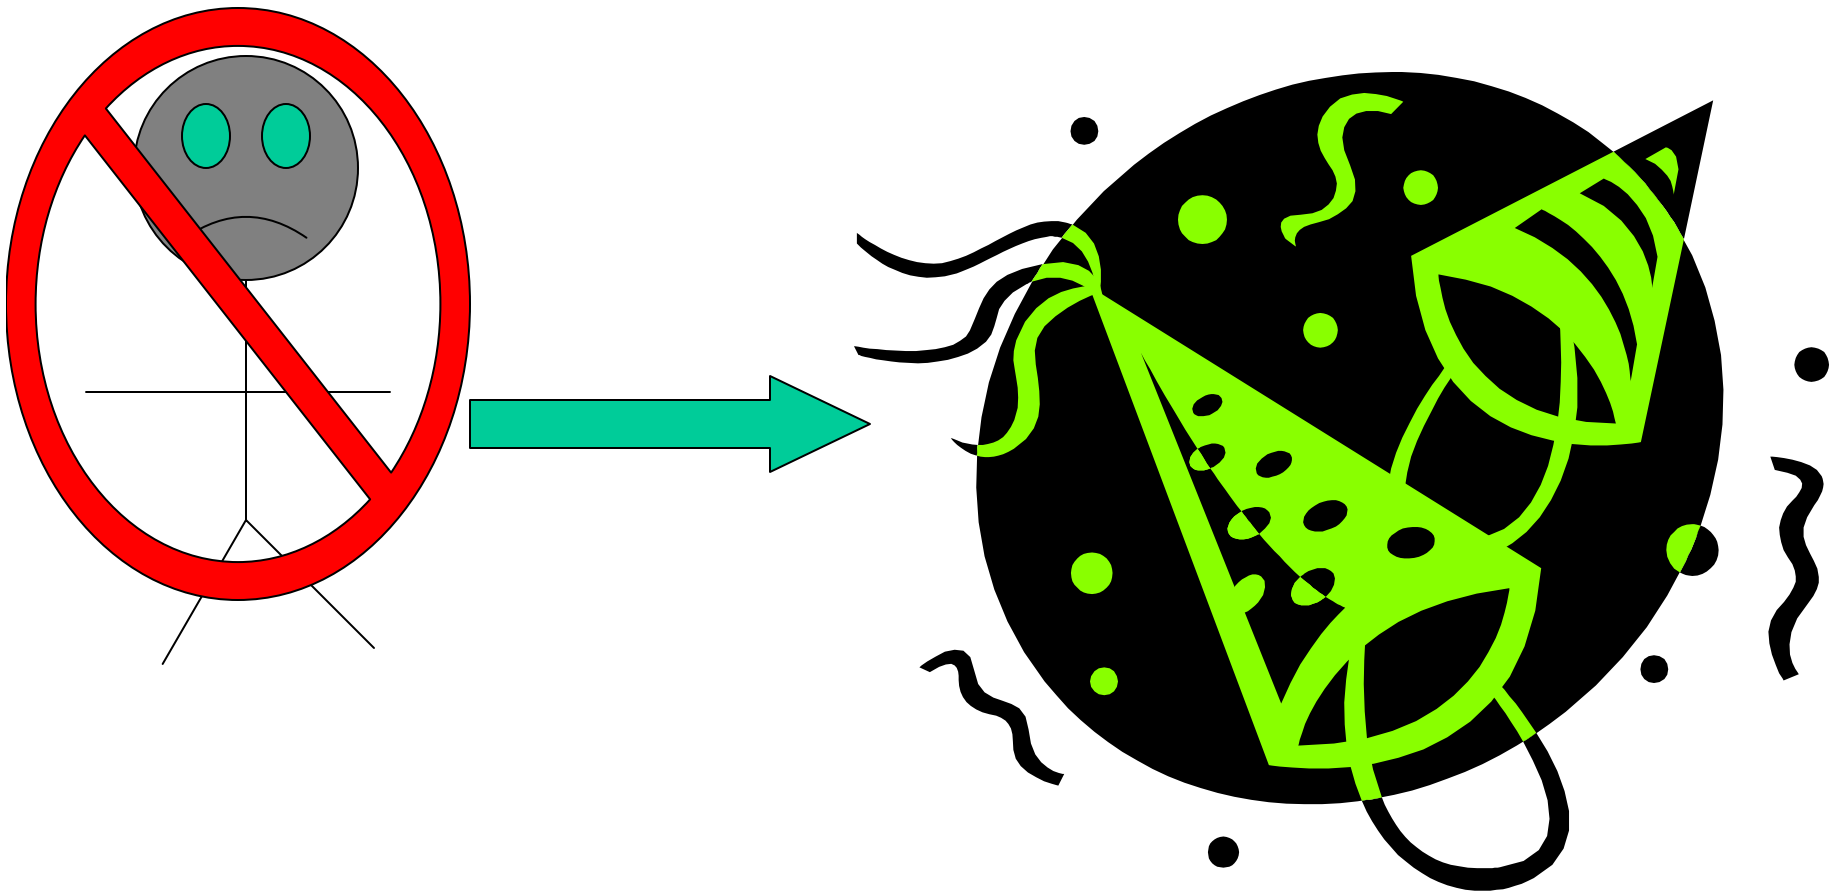

Safety belts can prevent death in about half of all accidents...

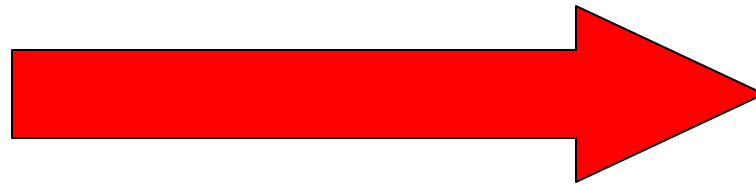

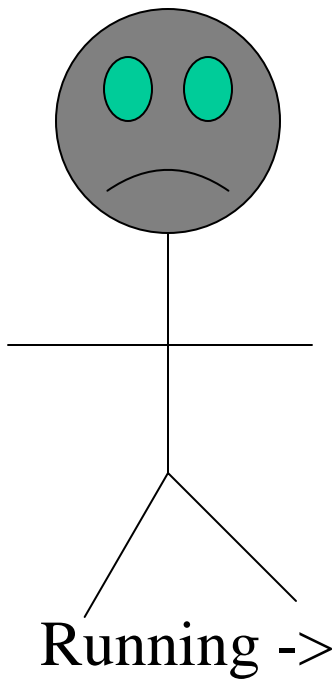

Even if you're going to a party,
wear it!

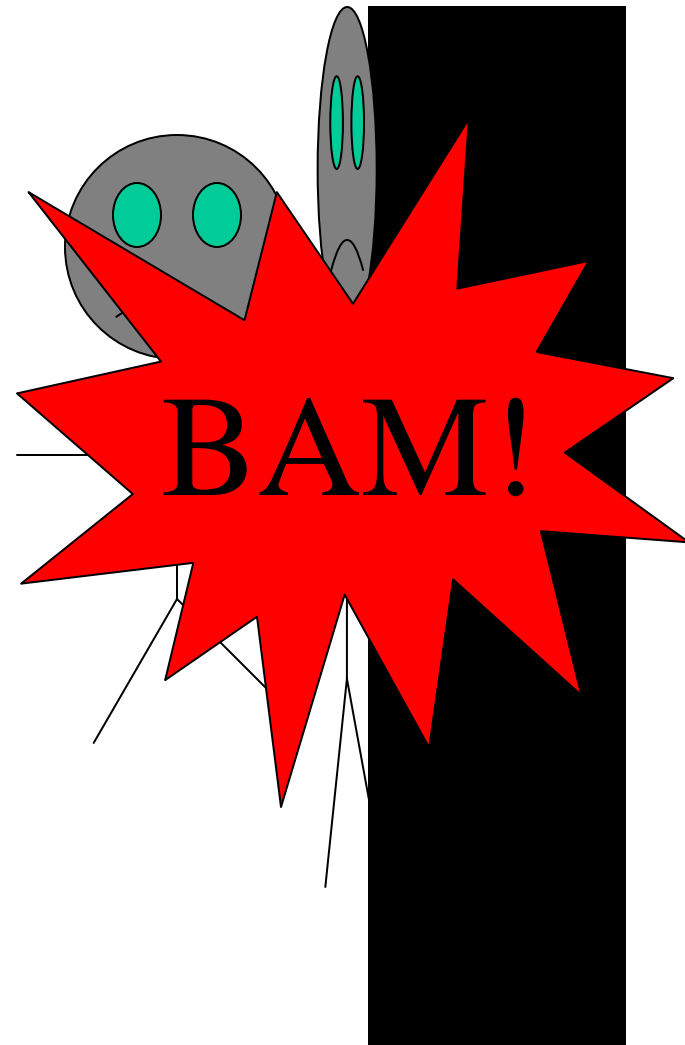

Don't be like him. ☹️

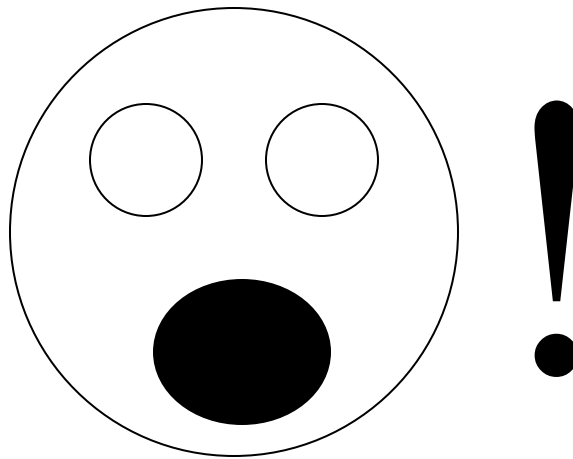

Does this look smart?

Wall

That's about what happens when
you wreck without a seat belt!

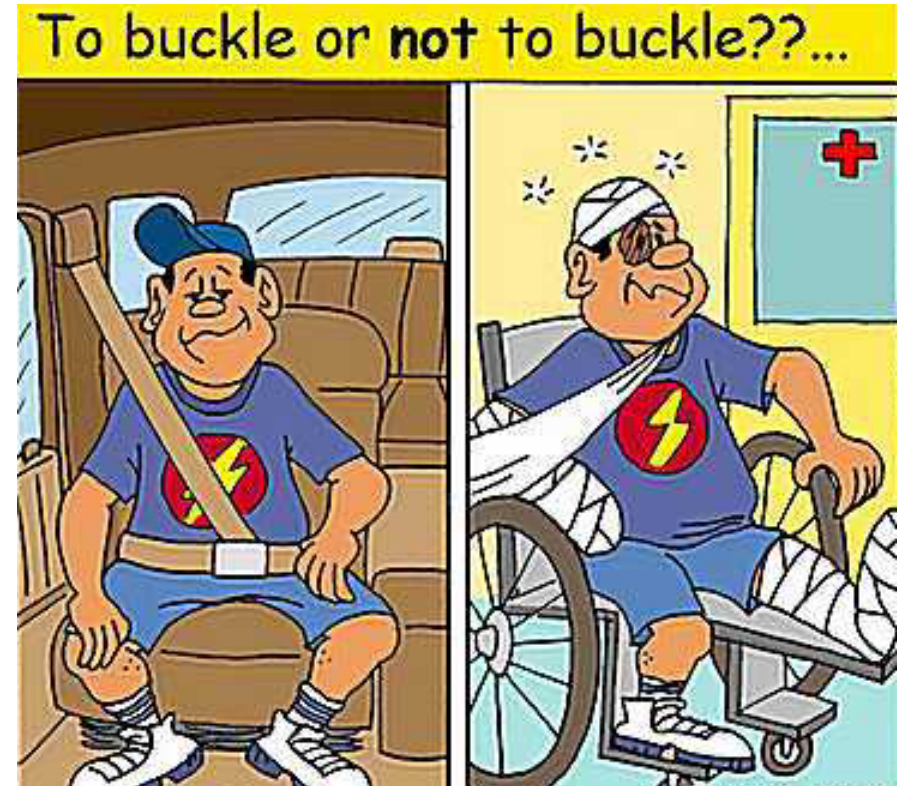

Seat Belt Factoids

Seat belts save 9,500 lives each year.

63% of people killed in accidents are not wearing seat belts.

If 90 % of Americans buckle up, we will prevent more than 5,500 deaths and 132,000 injuries annually.

Seat belts are the best protection in a car accident.

Unbelted occupants are four times more likely to die if they are thrown from the car than if they remained inside.

Yea!

Cellular Telecommunicators

Don't talk on your phone while
you're driving!

Loser

Cellular devices distract users
and create an unsafe environment
for drivers and passengers (even
Ricky Bobby.)

If you ain't first, yer
last!

This is Ricky Bobby urging you never to
~~go to Tijuana~~ drive while using your cell
phone!
